EDUCATION

University of Michigan **Ann Arbor, MI** *December 2029*
GPA: 3.79 / 4.00

Fox Run Senior Living Home **Novi, Michigan**
Server, Host, and Server Trainer *2021 - 2024*

- Guided and aided in leading over 50 staff members in the aiding and serving of over 1300 residents across the Senior Living home community, leading to customer satisfaction and caretaking of a more fragile populace.
- Helped to train and improve current and new employees in understanding and properly integrating into the community in the unique dining industry ensuring that the residents who dined at the locations were loved and cared for.
- Was integral in enabling the voices of the residents to be heard by inputting and interpreting the comment cards, a system implemented at the restaurant, left by members of the community to be sent to the higher ups in the company.

CLAWS (Collaborative Lab for Advancing Work in Space) / University of Michigan **Ann Arbor, Michigan**
Research Team Lead *September 2024 - Present*

- Lead and helped to ensure organization whilst tackling a new project, NASA's RASCAL project, which was proposed at the beginning of the school year spearheading motion towards interpreting and understanding its many challenges
- Persisted throughout the project and adapted as we shifted our project towards the construction of a research paper geared towards the previous challenge learning and adapting towards its new challenges.
- Aided in guiding formatting and research into the NASA SUITS challenge exploring not only the VR/AR system but also enabling the integral reason for the usage of certain elements; providing a backbone for the systematic design.

University of Michigan Physics Department Directed Reading Program **Ann Arbor, Michigan**
Research Mentee and Presenter *January 2025 – May 2025*

- Was challenged to look and begin to explore black hole discovery methods throughout history and its growth as a field with the corporation of a mentor providing papers throughout the internet to enable understanding of the field.
- Enhanced understanding of the field constructing a document that summarized and explained the papers findings results, reproving the process taken by the authors to myself leading to interpretation and discussion with mentor.
- Presented towards a group of other mentees and mentors regarding my findings about these methods of discovery and history on them to enable them to become more informed about the topic and inspire more motion towards the field.

High-school Additional Activities

Volunteer Experience: Worked over 450 hours of volunteer work divided across different activities

- Working as a day camp counsellor at my church to aid in the guidance and entertainment of over 300 kids
